TRUBSDAY, AUGUST 2, 1800.

THE CAUSE OF HIGH PRICES. The first and most important reason is the undue scarcity of everything needed. The New York Commercial attributes it to the men employed North and South in carrying on the war, and in producing the materials necessary for its prosecution, and which are useless for every other purpose of man, ceasing to produce that which is useful to imanity; and consequently the price of all things rose. New supplies will commence to reach the markets this Autumn, and will indoulstedly tend to reduce the price of articles of food, but it will require several crops. thort production and the unusual consump-

tion during the war. imposed on the production, importation and exchanges of commodities. These all swell the price of the various articles needed by the process of the various articles needed by A second cause is the innumerable taxes

A third cause is the vexations formalities now necessary to every operation of the officials who impose and collect our multifarious and aunoying taxes, excises, stamps and Custom Hogse duties. Every expense and every delay adds to the price of the articles for which they are incurred. If our people would visit the Custom House of this city, they would find a huge granite building, occupying a whole block, filled with Government officials, Custom House clerks, merchants and clerks, whose sole occupation is to overcome artificial obstructions to the beneficial exchange of commodities between the United States and foreign countries. All these persons might occupy their time at something useful instead of wasting it at something worse than useless, and this would reduce the cost of everything we consume, because it would reduce the cost of all foreign commodities and increase the amount produced at home, without in any way increasing the amount of labor at A fourth cause is the use of a depreciated

and constantly fluctuating currency. When gold is at 150, everything imported from foreign countries, as well as everything produced at home, costs fifty per cent. more than it would if we made our exchappes with a sound currency of equal value . that used by other commercial nations.

A fifth cause is the exorbitant cost of rents, owing to scarcity of houses throughout the whole country. This scarcity is due partly to the insufficient amount of labor at our command during the war, but still more to | tion of the civil jurisdiction of the States. the use of a depreciated currency, which enhances the cost of building. Capitalists are unwilling to contract houses at 50 per cent. more than they will be worth when the country returns once more—as is inevitable must-to a sound currency. The high rents now paid for houses and for the buildings used by producers and merchants, necessitates a corresponding increase to the consomers, of the price of every article they ness to withdraw from the Cabingt when it

The Washington correspondent of the In-dependent (M. C. A.) writes as follows to that

Here, with a host of others, came a young girl-a Treasury clerk. She wears a jaunty hat, to be, with great respect, your obedient service and a gray frock. She receives sixty ant, jacket and a gray frock. She receives sixty ant, dollars per month wages, page forty per month for her board, not including inci-dental expenses; therefore, it is perfectly same to say that, beyond those showy outside garments, her wardrobe cannot bear investiration. MILITARY USURPATION IN LOUI-

SIANA. rom the New Orleans Picayane, 25th.] It is our very disagreeable duty to remord nother military encroachment on the civil trisdiction of the State. Mr. WAILES, a esident of St. Charles, and Justice Brau, of the same parish, have been arrested by a file of soldiers, and brought to the city to be arraigned before the United States Commissioner under the following circum-

Mr. Walles is the owner of a place which was in the possession of a person named Fox. Walles desired possession, and gave notice to Mr. Fox, who was disinclined to leave. His grounds for refusal we have not heard. The parties met accidentally at a store, where some conversation on the subto fully overcome the injurious effects of the ject arose. Fox avowed his determination to hold on, and Mr. WAILES gave notice of his determination to oust him. We omit the particulars of the scuille that

The cause for arresting Judge BRAU is said to be that somebody accuses him of complicity in the killing of Fox, although he alleges that he was not at any time within ten miles of the place. The peculiarity of the case is, that ther is no law to justify it, unless naked martial law exists. Neither the Freedmen's Bureau

bill, nor the civil rights bill, has anything to do with the case, for there is neither a ne gro nor a soldier in the affair from the be-ginning. Nor does General GRANT's late order confer any authority, for that is expressly limited to cases when the civil an thorities omit or refuse to act. In this case the State authorities act promptly, have ar-rested the accused and put him under constraint for trial.

The arrest is therefore a naked assertion the military over the civil authorities of he State, and the circumstances make it an assertion of supremacy over the State juris diction in all eases whatever.

We should like to know what are the pinions of the new Attorney General of the inited States on this point, and on its congraity with the various proclamations of esident Jourson, concerning the restora-LETTER OF RESIGNATION OF EX-SECRETARY HARLAN.

We understand that a difficulty of a very erious nature occurred in the neighborhood of Beaver Creek, in this county, on Monday at the trial of two young men, which took place at Squire SMITR's, named respectively, A. W. Cox and ALEXANDER COOPER. The authorities, while endeavoring to hold a fair and importial trial, were interrupted in their proceedings by the intercession of other parties, when a general melee ensued which ratinated most seriously to several of the atrading party. Mr. John Cox suffered the loss of several teeth, together with the fracture of his jaw bone, and in other respects was severely injured. Samuer, Reed was stabled in six different places, and his recovery is considered doubtful.

There were several others who also sus-tained serious injuries, which, however are not considered fatal. The participants were rendered hors du combat, and their recovery must be patiently awaited in order to have the supremacy of the law vindicated. 24 South Market Street. COAL! COAL!! The Sewance Coal Mines
In FUTURE WILL BE WORKED BY THE
Tennesse Coal Company. The litigation
which has hitherto rendered these Mines of so
little value to the public has been settled, and
the parties interested now confidently expect
to capply Mashville and the other towns in Middle Tennesses with coal. They believe it is only
necessary for this coal to be tried to be generally
used. For manufacturing purposes and for Enrines, this coal is believed to be superior to any
that can be had in Tennessee. They especially
desire that Blacksmiths and all who work in iron,
should try this coal. The Company working these
Mines feel authorized to say that the people of
Nashville may rely upon them for a CRRTAIN
supply of Coal at all times, and they hope, by
being liberally patronised, to reduce the price of
Coal.
